

\$25 Million in Work Under Way on Highways

Plans and specifications for county roads and streets valued at \$25.6 million were programmed during the 1963-64 fiscal year, Supervisor Burton W. Chace has disclosed.

Chace, who is chairman of the supervisors' road committee, said the work was designed and construction begun to keep pace with the increasing highway demands in the metropolitan area.

The major work was construction in progress, some 138 projects valued at \$12.5 million. Contracts for 99 new projects worth \$7.7 million and 43 projects under construction worth \$5.4 million made up the balance.

Fourth District projects included: \$200,200 for Aviation Boulevard from El Segundo Boulevard to 116th Street, a \$500,000 bridge on Figueroa Street over the Dominguez Channel, \$102,000 for improvements on city Terrace Drive from Herbert to Miller avenues, and a million dollar railroad underpass at Aviation Boulevard and Rosecrans Avenue.

Chace said the work also included \$350,000 for 120th Street in the Normandie-Crenshaw area, \$137,000 for 223rd Street between Vermont Avenue and Figueroa Street, and \$96,500 for the development of Main Street from 119th Street to El Segundo Boulevard.

Kindergarten Registration Dates Set for City Schools

Registration for children who will enter kindergarten or another elementary grade for the first time when Los Angeles city schools open Sept. 14 will be continued on Thursday and Friday of this week.

All schools were closed Monday, Labor Day, and Wednesday, which is Admission Day.

"This extensive highway construction activity provides much-needed highway improvements and at the same time creates a market for millions of dollars worth of materials, labor, and other related services" to bolster our economy," Chace declared.

Kindergarten students will be accepted on the basis of the oldest children first. In the event of a shortage of classroom space, the youngest students will be put on a waiting list for February classes.

Children entering kindergarten must be 5 years old on or before Dec. 1. Parents or guardians must accompany children for registration. Proof of age is required and all students must be immunized against polio.

Specific information about registration can be obtained from the principal at the local school.

Boundaries Drawn for City School Regional Districts

Establishment of two new regional elementary school districts and four regional high school districts within the Los Angeles City School System has been approved by the city board of education.

Purpose of the new organization is to bring the administration and decision-making process closer to the public, according to Jack P. Crowther, superintendent of schools.

The plan will be effective in the elementary areas Nov. 1, while the high school organization becomes effective Dec. 21.

EXISTING neighborhood school boundaries will not be affected by the new organization.

The old south elementary district has been redesignated as the Harbor District, with Century Boulevard and Imperial Highway forming the northern boundary. A new District A in the second level includes the Harbor area and parts of southeast and central Los Angeles.

Total enrollment for the Harbor District, which now comprises 54 elementary schools, is estimated at 49,796.
